goncaloestrelado

Proudly showcasing my most notable projects. See more in my portfolio. [goncalo-estrelado.netlify.app/](https://goncalo-estrelado.netlify.app/)

## HARD SKILLS

## LANGUAGES

## SUMMARY

Aspiring Junior Web Developer with a strong passion for web development and a determination to create and maintain robust web applications. Proficient in essential languages including HTML, CSS, JavaScript, and TypeScript, with specialized expertise in the React framework. Actively seeking opportunities to contribute my skills to a vibrant team, driving the organization's success.

## PROJECTS

### Frontend Project

#### E-commerce Website Project

25/09/2023 - in Development

[ge-shop.netlify.app](https://ge-shop.netlify.app)

- Designed and built a user-friendly E-commerce platform.
- Implemented seamless product exploration and cart management features to enhance the user shopping experience.
- Utilized ReactJS, Styled-components, and Tailwind CSS to create an appealing and intuitive user interface. Focused on responsive design to ensure optimal performance on various screen sizes, enhancing the overall user experience.
- Engineered a functional shopping cart system, allowing users to easily add and manage items. Applied effective state management techniques for real-time updates, facilitating a smooth and convenient shopping experience.
- Integrated with external APIs to retrieve product data dynamically, ensuring optimal data fetching and display.

### Fullstack Project

#### Ironhack Course Final Project

04/2022 - 05/2022

- Developed a responsive web application using ReactJS, prioritizing a mobile-first approach and employing responsive layouts, scalable UI components, and media queries for optimal user experiences.
- Coordinated with a project partner to streamline development using TRELLO and for fast issue resolution.
- Successfully set up a MongoDB Cluster.
- Implemented efficient component reusability strategies to optimize code modularity and contributing to seamless long-term development with a focus on maintainability.
- Acquired knowledge of deploying backend and frontend using a deploying platform, Netlify.

### Other Projects

#### Tesla Website Clone

16/11/2022

[tesla-clone-gnestrelado.netlify.app](https://tesla-clone-gnestrelado.netlify.app)

- Developed a highly accurate replication of the official Tesla website using ReactJS, using Styled-Components to ensure the most accurate design and substantial code reuse.
- Showcased a streamlined state management system, enhancing the efficiency and functionality of the website.

#### Whatsapp Clone

17/11/2022-23/11/2022

[whatsgood-gnestrelado.netlify.app](https://whatsgood-gnestrelado.netlify.app)

- Created a responsive WhatsApp-like web app with seamless cross-device functionality, including user login with Google, messaging, group chats, and optimal loading times using modern web technologies.
- Using Firebase for synchronized data in real time across all connected clients.

# EDUCATION

---

## WEB Development Graduate

**Ironhack**

📅 09/09/2021 – 07/05/2022

- Completed 400+ hrs of full-stack JavaScript web development, including pre-work and career development.
- Proficient in HTML5, CSS3, ReactJS, ExpressJS, RESTful APIs, and MongoDB for building responsive web apps and managing data.
